---

Osaka Gas commissioned the 622.6MW Himeji Natural Gas Power Station Unit 1 on January 1, 2026, the company announced on January 5, 2026, marking its first new fossil-fired ...

Exencell, as a leader in the high-end energy storage battery market, has always been committed to providing clean and green energy to our global partners, continuously ...

The 300 MWh Revolution energy storage facility was completed in one year--on schedule and within budget.

The future of energy storage is not about a single "winner"; but a diverse portfolio of advanced technologies. This article explores the energy storage system innovations moving ...

Sunwoda's MESS 2000 mobile energy storage vehicle packs a battery into a truck. Sunwoda Energy has recently unveiled the Sunwoda MESS 2000, the world's first 10-metre ...

Sunwoda unveils 314Ah and 625Ah LiFePO4 batteries, along with a 2MWh mobile energy storage system, showcasing cutting-edge solutions for ...

BLUETTI showcases new portable power and home backup solutions at CES 2026. Full details will debut at the Energy Vision Launch on Jan 7, 3 PM.

Designed for commercial, industrial, and large-scale renewable energy storage needs, it is particularly suitable for grid stability, renewable energy integration, and off-grid power systems ...

Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy generation, PV self-consumption, off-grid ...

The U.S. Department of Energy's solar office and its national laboratory partners analyze cost data for U.S. solar photovoltaic systems to develop ...

A battery energy storage solution offers new application flexibility and unlocks new business value across the energy value chain, from conventional power generation, transmission & ...

Sunwoda unveils 314Ah and 625Ah LiFePO4 batteries, along with a 2MWh mobile energy storage system, showcasing cutting-edge solutions for scalable, efficient power storage.

Bondada Engineering has secured a Rs 627 crore order from AP TRANSCO to develop a 225 MW/450 MWh standalone battery energy storage system under the BOO model ...

Zoom out: India's energy storage sector is entering a hyper-growth phase. Capacity is projected to rise nearly 5x between 2026 and 2032, supported by investments of almost INR4.8 ...

CATL introduced in Munich a new 9 MWh energy storage system designed to optimise industrial installations and address global logistics constraints.

II Lazard's Levelized Cost of Storage Analysis v7.0 Energy Storage Use Cases--Overview By identifying and evaluating the most commonly deployed energy storage applications, Lazard's ...

Electrovaya plans initial system deployments in 2026, with broader deliveries commencing in 2027. The energy storage units address key market needs for grid stability, ...

Summary HighJoule's scalable, high-efficiency 2MWh energy storage system provides reliable, cost-effective solutions for commercial, industrial, and utility-scale applications. With 95% ...
