What are data center rack and cabinet solutions?

These data center rack and cabinet solutions are ideal in places where the ambient temperature is insufficient to support hot data center machines. Custom production gives you the privilege to choose preferred specifications to create your custom made boxes.

Why do you need an electrical enclosure for your data center?

Your IT equipment should have enclosures to house and protect them from possible damage, water accidents, or dust particles. Our company, your reliable data cabinet supplier, offers custom electrical enclosures for data centers to ensure a stable data storage system.

What is a DC series cabinet?

Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature-rich cabinets.

Why are cabinets important in a data center?

Cabinets are one of the most important items in any data center that house different types of IT equipment. We offer different type of cabinets. When selecting a cabinet, it is critical to choose one that can adapt to your IT equipment needs and support your infrastructure to function in the most energy-efficient way possible

BYD 40kW/40kWh ESS Solution 40kW/40kWh ESS is a scalable modular lithium-ion battery storage solution. Batteries and control electronics are inserted in two standard 42U ...
