With their highly efficient refrigeration system and outstanding thermal insulation, ESPEC's constant climate cabinets are ideal for use in laboratories and research facilities. They offer a ...

Continuous improvement in the design of constant-temperature (and humidity) cabinets now with remote monitoring and control via PC Ethernet connection and web browser. The line-up ...

CSZ MicroClimate Benchtop Test Chambers are available in temperature and temperature and humidity configurations for efficient testing of small ...

The six-model lineup includes 105- and 206-liter models available in four temperature (humidity) ranges and two sizes. All models support a single phase power supply and a wide range of ...

Ensure battery reliability for EVs with our temperature humidity test chamber. Features -70? to +200? range, ±2% humidity control, and explosion-proof meet hazard level . Ideal for new ...

ESPEC Benchtop Models: Compact and versatile, ideal for small-scale testing. Platinous Chambers: Our flagship product for general ...

High performance and reliability come in a compact package, for a wide range of temperature/humidity testing needs. Continuous improvement in the design of constant ...

ESPEC's environmental test chambers that meet a variety of needs. Together with custom products, view our wide lineup, including Temperature (& Humidity) Chambers, Thermal Shock ...

partner in Science.

Neware high-low temperature test chambers are available in a variety of configurations that can meet your specific temperature, humidity, and safety protection requirements.

Explore our Climatic Chambers for precise testing of batteries and EV components under extreme temperature and humidity conditions.

With our complete range of temperature chambers, humidity chambers, Qualmark chambers, and precision industrial ovens, our testing equipment will help you improve your product reliability.

Constant climate chambers are available in different sizes and with different temperature and humidity ranges. Before purchasing, you need to consider in detail the applications for which ...

Constant-temperature Battery Cabinet is made up by heating insulating sandwich plate, which has good heating insulation. To use high efficiency air-conditioning for battery refrigeration, to ...

Refined in operation ease and safety, as well as lower energy consumption and easier recycling, these chambers offer ESPEC's advanced technologies. The six-model lineup includes 105- ...

High performance and reliability come in a compact package, for a wide range of temperature/humidity testing needs. Continuous improvement in the design of constant ...

Designed to meet the demanding requirements for precise humidity and stability, Advanced engineered design incorporates the latest in cabinet, ...

Small Constant temperature and humidity testing machine is designed for lab, to simulate the product performance in the different climate conditions ...
