Are there any lithium 40ah power stations available?

Sorry! We're unable to get our hands on any more of these. If you dream of staying off-grid for longer but still need to keep things charged, the Rover Lithium 40Ah Power Station from Companion is the trusty power solution to help turn that dream into reality.

How do I charge a 40ah power station?

Page 7 40AH POWER STATION CHARGING BY DC CABLE (INCLUDED) Step 1. Turn on the power station by holding the power button for three seconds. Step 2. Insert the adaptor plug into the input socket on the side of the power station and the DC charger to your power source.

What type of battery does the Rover Li 40 use?

The Rover Li 40 uses a Lithium Ion Phosphate battery. There are three ways the battery can be charged - DC Cable, 240V AC Adaptor or Solar Panel. The power station can only be charged using one of the above options as all three use the one input. Note: Fully charge the battery at least every six months.

What is the 40ah power station warranty policy?

40AH POWER STATION WARRANTY POLICY 1. Products distributed by Adventure Operations Australia Pty Ltd and any of our subsidiaries come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage.
