Can Croatia supply gas to neighbouring countries?

The upcoming upgrades will enable Croatia to supply gas to neighbouring countries, including Hungary, Slovenia, Austria, Germany's Bavaria and potentially Bosnia & Herzegovina. 'This terminal makes Croatia, when it comes to gas, an energy regional hub,' Plenkovic in June 2024, announcing the terminal's expansion.

Is Croatia energy-independent?

Croatia also co-owns the Krsko nuclear reactor in Slovenia, which is included in its energy mix as imported electricity. To become energy-independent and sustainable, Croatia counts on its abundant renewable energy resources. In March 2025, the Croatian government updated its Energy Strategy for the period until 2030, with an outlook through 2050.

How much energy does Croatia import?

Croatia imports about 54.54% of the total energy consumed annually: 74.48% of natural gas, 78.34% of oil and petroleum products, and 100% of its solid fossil fuel needs. Croatia also co-owns the Krsko nuclear reactor in Slovenia, which is included in its energy mix as imported electricity.

Is Croatia a gas hub?

'This terminal makes Croatia, when it comes to gas, an energy regional hub,' Plenkovic in June 2024, announcing the terminal's expansion. Officials in Zagreb highlighted the importance of Krk in January when Russian gas exports via Ukraine were halted, leaving many countries scrambling for alternatives.
