Where are special chemical cabinets used?

They are used even in entities and industries that are not specifically involved in chemical processes. These include schools, universities, public institutes, warehouses, storerooms etc. Special chemical cabinets (laboratory cabinets) offer an optimal solution for the legally compliant storage of such toxic, non-flammable chemicals and toxins.

What are chemical storage cabinets without fire protection?

The cabinets without fire protection are based on the CS-CLASSIC chemical storage cabinets. With robust and corrosion resistant interior equipment, the cabinet is capable of joint storage of different chemicals.

What types of doors are available for a chemical storage cabinet?

The doors can be individually selected - wing doors, space saving folding doors or doors with glass panel. Type 30 safety box: An asecos chemical storage cabinet is available on request with a type 30 safety box according to EN 14470-1. This box has all the safety features of a fire resistant safety storage cabinet.
