What's going on in Gothenburg?

Gothenburg is a hub for innovation and at the forefront of sustainable industry. Now a battery cluster is taking shape, characterised by something that has served the region well: collaboration. Near Volvo Car's production plant and new battery assembly factory in Torslunda, a gigafactory is under construction.

How many experts does Novo energy have in Gothenburg?

Novo Energy aims to employ 300 experts in its R&D centre in Gothenburg. So here is a window for people with the right profile, for people who want to join what Novo Energy describes as a "world-class team of technologists for R&D into next-generation battery cells".

Are NMC batteries made in Gothenburg?

In Gothenburg, NMC batteries will be manufactured, but there are other types of batteries for cars and other applications. We are mostly talking about lithium-ion batteries, but there are several technologies with different cathode materials. NMC batteries - are what people talk about the most.

What is Volvo's new research and Development Center in Gothenburg?

Established in 2022, the company has set up a research and development center in Gothenburg to build on the battery expertise within both companies and develop next-generation, state-of-the-art battery cells and vehicle integration technologies, specifically developed for use in Volvo cars.

Meet Pooyan Seddighzadeh, Senior Director of Engineering at NOVO Energy. Being one of the first to have built a factory of this scale in ...

Enequi is a Swedish manufacturer specializing in intelligent energy storage solutions, including their QuiPower system, which offers reliable and sustainable energy supply for both private ...

This article explores the role of manufacturers in Gothenburg--a hub for green technology--in developing cutting-edge power storage solutions that ensure reliability during outages and ...

Construction of the plant will start in 2023 and it will produce state-of-the-art battery cells, specifically developed for use in next generation pure electric Volvo and Polestar cars.

Summary: Gothenburg's new energy storage project addresses renewable energy challenges through cutting-edge battery systems. This article explores how this initiative supports ...

NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg.

Construction of Volvo Cars and Northvolt's joint Li-on battery gigafactory in Gothenburg, Sweden, is now underway. Once complete, it will be among the largest in Europe, with over 3,000 ...

As the world races toward decarbonization, Sweden's new energy storage technology is turning heads globally, blending Nordic pragmatism with breakthroughs that ...

This article delves into the top 10 energy storage companies in Sweden, which include key developers and investors who are delivering innovative solutions. This dynamic ...

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and sustainable transport solutions.

LIWANAG SOLAR - Summary: Explore how tailored energy storage cabinets address industrial needs in Gothenburg, Sweden. Discover trends, case studies, and why customization matters ...

The answer from Volvo Cars and Northvolt is clear: we will develop and build our own batteries and it will be done on site in Sweden. That's why they created the joint company ...

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and ...

Polarium offers modular battery energy storage systems (BESS) that convert variable renewable energy into dispatchable power. Their intelligent solutions ensure energy availability, improve ...

Established: 2001 | Headquarters: Stockholm Eco-Cut Systems Sweden was born from a simple idea: recycling equipment should be as eco-friendly as the work it enables. ...
