-----

The Investment Board Nepal has initiated a greenfield project to establish 400 fast charging stations in densely populated areas and along highway service areas (Investment Board ...

This study optimizes the placement and sizing of solar photovoltaic-battery system (PV-BESS) in Nepal's 30-bus Byasi feeder to mitigate these issues.

It draws from solar panels and battery storage, minimizing grid dependency and maximizing sustainability. Its liquid-cooled architecture ...

Designed with a liquid-cooled, modular architecture and multi-level power pooling, it supports ultra-fast charging up to 500 kW, ensuring ...

Nepal is on the cusp of a major transformation in its transportation sector, driven by a visionary master plan to establish 424 electric vehicle (EV) charging stations on national ...

National Highways, responsible for motorways and A-roads in England, has announced plans to trial a kinetic energy storage system to ...

It combines solar (PV) and battery storage (ESS) for efficient, grid-friendly charging. With support for reactive power control, OTA ...

Discover how AirCharge is revolutionizing Nepal's EV landscape by deploying strategic fast charging stations across urban centers and highways. As the nation embraces ...

Nepal's #1 solar energy company since 2004. Premium solar panels, inverters, batteries from top brands.

Professional installation across 25+ ...

Best 10KWh LiFePO4 solar battery kit in Nepal with 6KW inverter & MPPT charger. Reliable power for homes & businesses. Buy in Kathmandu.

This paper addresses the challenge of high peak loads on local distribution networks caused by fast charging stations for electric vehicles along highways, particularly in ...

Solar electric vehicle (EV) charging stations offer a promising solution to an environmental issue related to EVs by supplying eco-friendly electricity. Herein, we designed ...

The goal is to maximize the highway manager's benefits while satisfying fully charged battery demands for swapping-type EVs. In the second level, we focus on optimizing ...

Charging station Charging stations for electric vehicles: Top-left: a Tesla Roadster (2008) being charged at an electric charging station in Iwata city, Japan. Top-right: Brammo Empulse ...

XCharge North America, a provider of high-power EV charging and battery-integrated solutions, deployed the four, dual-dispenser GridLink chargers.

Nepal, with its vast hydropower potential and growing solar interest, stands at a crossroads. The dialogue tapped into that, spotlighting tech to offset the nation's 90% ...

GSL-100 (DC50) (215kWh) (EV120) 100kWh Solar Battery Storage Cabinet 280Ah LiFePO4 Battery Air-cooling ...

Designed with a liquid-cooled, modular architecture and multi-level power pooling, it supports ultra-fast charging up to 500 kW, ensuring safe, efficient, and scalable charging for all ...
