Do you need a lightning protection system?

Over 30% of all residential fires are due to lightning. To protect your family from these potentially deadly strikes, it is important to have a lightning protection system in place. Smoke alarms and sprinkler systems are reactive solutions but a lightning protection system is a proactive solution.

Is a lightning protection system a proactive solution?

Smoke alarms and sprinkler systems are reactive solutions but a lightning protection system is a proactive solution. With over 30 years of combined installation experience, we have provided lightning and surge protection to hundreds of homes throughout North Carolina, South Carolina, and Virginia.

How much does lightning protection cost?

For alternative lightning protection, costs vary. Outlet protectors are only \$10 to \$30, while lightning arresters cost more at \$440 to \$2,300. Lightning protection systems cost between \$450 and \$2,681 to install, with an average of about \$1,554. Just one lightning bolt is hotter than the sun and carries a whopping 300 million volts of electricity.

What is HomeSafe lightning protection?

At HomeSafe Lightning Protection, we take pride in our lightning protection products and services. Our systems are designed to safeguard you from the dangers of a lightning strike, and our team of experts can help you choose the right system for your needs.

Lightning Rod Installation - Specific to lightning protection, this service involves the placement of rods that attract lightning, safely directing it to the ground and preventing damage to structures.

I don't think there's any difference in meaning, although "free of charges" is much less common than "free of charge". Regarding your second question about context: given that ...
