-----

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the ...

The development will stand on 55 acres of land previously occupied by a coal station. Credit: Fidra Energy Ltd. Fidra Energy, a ...

A battery energy storage system (BESS), battery storage power station, battery energy grid storage (BEGS) or battery grid storage is a type of ...

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage ...

The project will include 3.5GWp of solar PV generation capacity and a 4.5GWh battery energy storage system (BESS), which will ...

Projects completed, under construction and in the deeper development pipeline remain heavily weighted toward California, the Desert Southwest and Texas, with significant ...

The Lewis Ridge Pumped Storage Project, a 287 MW facility located on former mining lands in Kentucky, has received \$81 million in funding from DOE to advance its ...

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to a clean energy ...

Why Energy Storage Projects Are the Backbone of Modern Power Systems Ever wondered how giant batteries

can save the grid during a heatwave? Let's unpack the ...

Discussion of PPA contracting presupposes that the developer has assessed and reassessed the intrinsic power economics of ...

Government Market News | Mary Scott Nabers Insights | Battery storage projects surge as utilities prepare for next grid era in 2026 | Battery storage projects nationwide are ...

Hydrostor Inc., a leader in compressed air energy storage, aims to break ground on its first large plant by the end of this year.

A controversial energy project in south central Washington is one step closer to breaking ground. A federal commission released its final environmental review for the ...

DOE Announces \$289.7 Million Loan Guarantee to Sunwealth to Deploy Solar PV and Battery Energy Storage, Creating Wide-Scale Virtual Power Plant Project Polo will deploy ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is ...

The Higher Ground project is being progressed by Mutual Energy and is exploring the potential for developing a local Pumped Hydro Energy Storage (PHES) scheme in Northern Ireland. ...

"Central Utah is the ideal location for this project, and Utah is a business friendly state for projects like this. Magnum's site adjacent to the Intermountain Power Project is ...

The 30 MW plant is the first utility-scale, grid-connected flywheel energy storage project in China and the largest one in the world.
