Can battery energy storage systems stabilize Vietnam's grid?

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and accelerate the energy transition.

Why should Vietnam invest in energy storage?

Vietnam's innovations and recent developments in the energy sector emerge as an inspiration for the global drive towards a cleaner and more sustainable future. The nation's strategic approach to energy storage exemplifies the significance of collaboration, blended financing, and aligning initiatives with national plans.

How can government support energy storage in Vietnam?

Government support through policy reformations, training and upskilling programs, well-planned roadmaps, awareness campaigns, and other initiatives can further attract private investment and international support. Emulating Vietnam's Strategic Approach to Energy Storage

Who owns Marubeni green power Vietnam?

Marubeni Green Power Vietnam, a wholly owned subsidiary of Marubeni--one of Japan's largest general trading 'sogo shosha' companies--partnered with Vietnamese counterpart VinGroup for the 1.8MW/3.7MWh lithium-ion (Li-ion) battery energy storage system (BESS) project.

The "electricity shortage" in Vietnam in the first half of 2023 has made the domestic energy shortage problem increasingly severe. Energy transformation is urgent, and the ...

Hoenergy energy storage solutions reached a new milestone as Hoenergy officially signed a strategic cooperation agreement and a 100 MWh energy storage deployment ...

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate ...

Analysis of Vietnam's new power development plan using our open access TZ-APG energy system models. How will renewables, ...

Vietnam sharpened its national energy storage roadmap this week as government leaders and industrial operators aligned on BESS ...

A tropical breeze sweeps through Hanoi streets carrying more than just the scent of pho - it's delivering 3.5 GW of wind power capacity that Vietnam added in 2022 alone [5]. But ...

Viet Nam plans to develop large-scale energy storage systems as part of its strategy to stabilise its fast-growing renewable power grid and meet its net-zero emissions ...

From June 24 to 27, 2025, the China Energy Storage Alliance (CNESA) organized a delegation to Vietnam for an in-depth market study and exchange. The delegation focused on the current ...

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt ...

Energy storage is being considered as one of the potential solutions to address these challenges, whereby energy is stored and converted to electrical energy when needed. ...

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and ...

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and accelerate the energy transition.

Vietnam sharpened its national energy storage roadmap this week as government leaders and industrial operators aligned on BESS deployment.

Energy Storage AES is the world leader in lithium-ion-based energy storage, both through our business project and joint venture, Fluence. We ...

The ACEN and AMI joint venture has been awarded a US\$2,962,000 grant by the U.S. Consulate General, Ho Chi Minh City ...

Is battery energy storage systems a new wave in Vietnam? A New Wave in Vietnam's Energy Sector: Battery Energy Storage Systems (BESS)! Vietnam is at the forefront of a ...

A strategic analysis of Vietnam's energy future: why Battery Energy Storage Systems (BESS) will decide enterprise competitiveness by 2026, and how SolarBK is shaping ...

Hoenergy Company Update | Vietnam | Localized Energy Storage Development When Hoenergy first started engaging with the Vietnamese market, the focus wasn't on ...
