What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providing a line of defense against theft.

Why are IP54 enclosures used as traffic control cabinets?

IP54 enclosures are commonly used as traffic control cabinets among other applications because of its superior ability to protect the electrical equipment from splashing water or rain conditions from any directions as well as protection from tampering from any solid object aside from a non-harmful deposit of dust.

What is a battery enclosure box?

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery enclosures can be pole-mounted or ground-mounted and are suitable for indoor and outdoor applications.
