-----  
What is a valuation framework for informing Grid Modernization decisions?

This project built from A Valuation Framework for Informing Grid Modernization Decisions (2019). Planning for long-duration power interruptions caused by high-impact, low-probability events requires new approaches to power system resilience above and beyond previous hardening efforts.

What are the different ratemaking approaches for the electricity sector?

There are a variety of frameworks for assessing different ratemaking approaches for the electricity sector, including capital investments in generation, transmission, and distribution assets, compensating the deployment of distributed technologies, and leveraging opportunities for demand-side management.

How many AP1000 units have been built at Vogtle electric generating station?

Two new AP1000 units have been constructed at the Vogtle Electric Generating Station in Burke County Georgia. Vogtle Unit 3 began commercial operation in July of 2023, and Vogtle Unit 4 began the process to load fuel into the reactor core in August of 2023.

What is a case configuration for wind turbine repower?

The case configuration assumes a partial repower of wind turbines rated at 1.5 MW to wind turbines rated at 1.6 MW with 125-m rotor diameter and 90-m hub height. This will consist of the repowering of 94 wind turbine generators (WTGs) for a 150 MW capacity. These features reflect modern wind turbine repowers which employ larger rotor diameter.

The specific objective was to develop detailed step-by-step valuation guidance that PSH developers, plant owners or operators, and other ...

We help market participants value the full range of electric power assets including generation, storage, transmission, distribution and customer-side. Our triangulation approach covering ...

EPA standards for coal-fired plants, government subsidies for wind and solar generation, safety standards for nuclear power, and the price of natural gas all relate to the valuation process for ...

Electric generation assets require specialized valuation methods due to their capital intensity, regulatory oversight, and long useful lives. These assets often operate in highly regulated ...

The 2025 International Valuation Standards introduce new mandatory requirements, new general standards and references to ESG.

EPA standards for coal-fired plants, government subsidies for wind and solar generation, safety standards for nuclear power, and the price of natural ...

For many participants involved in power trading such as energy merchants, utilities, banks, and other investment companies, accurate valuation of generation assets and their associated risk ...

NREL's PVWatts <sup>174</sup>; Calculator Estimates the energy production of grid-connected photovoltaic (PV) energy systems throughout the world. It allows homeowners, small building owners, ...

In the Electric Power Generation, Transmission, and Distribution industry, accurate valuation is fundamental to informed ...

I've partnered with Kevin Reilly and evcValuation on some of the most complex valuation assignments in the country, including nuclear power plants, cogeneration facilities, wind and ...

Explore key updates in the 2024 International Valuation Standards (IVS) and their implications for stakeholders and valuation practices.

To accurately reflect the changing cost of new electric power generators in the Annual Energy Outlook 2025 (AEO2025), EIA commissioned Sargent & Lundy (S&L) to evaluate the overnight ...

The "Xcel Energy Standard for Electric Installation and Use" contains the requirements and uniform standards necessary to achieve this policy. Uniform enforcement of these standards ...

In this paper, we describe a model for power plant valuation that accounts for such important operating characteristics as minimum on- and off-times, ramp time, nonconstant heat rates, ...

Appraisal Economics is considered an expert consulting firm performing power plant appraisals and valuations for the electric power generation industry for more than 30 years. Our team of ...
