-----  
Could a £300m energy storage plant play a key role?

The backers of a pioneering £300m energy storage plant set for Greater Manchester say it could play a key role in the UK's net zero transition. Highview Power has announced it has secured investment from energy giant Centrica and the UK Infrastructure Bank to build the first commercial-scale liquid air energy storage (LAES) plant in the UK.

Who are Manchester renewables?

Here at Manchester Renewables we supply and fit all of Manchester with renewable energy products, from Solar PV Systems, EV Charging Points, Battery Storage and Heat Pumps. Our expert teams are all MCS & RECC accredited, providing you with the highest quality installations, using the best and most efficient systems on the market today.

What is energy for a sustainable & environmentally friendly Manchester?

Sustainable, reliable & affordable energy systems, Manchester renewables! Energy for a sustainable and environmentally friendly Manchester. We are committed to helping Manchester transition to zero-carbon lifestyles and help households save energy.

Could £300m energy storage plant play a key role in net zero?

More info The backers of a pioneering £300m energy storage plant set for Greater Manchester say it could play a key role in the UK's net zero transition.

British electric vehicle (EV) charging station operator InstaVolt has officially opened the UK's largest ultra-rapid charging "Superhub", ...

The new Winchester Superhub offers a total of 44 rapid chargers, each capable of delivering up to 160kW of power. On-site solar ...

An engineering-led collaboration between Sulzer and Highview Power will help provide long-duration energy storage at Highview Power's new facility at Carrington, ...

Griff Services Ltd is a Manchester-based electrical-engineering and renewable-energy contractor that designs, ...

A £300m energy storage plant that could create hundreds of jobs is being built in Carrington - and its backers say shows Greater Manchester is leading the way in helping the ...

The backers of a pioneering £300m energy storage plant set for Greater Manchester say it could play a key role in the UK's net zero transition. Highview Power has ...

Modular Carbon Zero Homes Infinite has developed one of the first Project Electric Vehicle (EV) wind turbine-powered charging stations ...

This study aims to design an efficient hybrid solar-wind fast charging station with an energy storage system (ESS) to maximize station efficiency and ...

InstaVolt opens largest ultra-rapid charging hub in the UK The site features 44 ultra-rapid chargers powered by a mix of solar energy, battery storage and renewable grid ...

Al-Wahedi and Bicer have investigated the integration of battery, hydrogen and ammonia energy storage methods into the stand-alone hybrid solar and wind energy-based ...

About Us KX Power is a leading developer and asset manager of utility scale energy storage and flexibility technology in the UK. Power ...

The concept behind this research article is advancement towards utilizing renewable energy sources of wind-solar to generate ...

"Solar-storage-charging" refers to systems which use distributed solar PV generation equipment to create energy which is then ...

British DC fast-charging company InstaVolt has officially opened "the largest and most advanced ultra-rapid charging Superhub in the UK."

Here at Manchester Renewables we supply and fit all of Manchester with renewable energy products, from Solar PV Systems, EV Charging Points, Battery Storage and Heat Pumps. Our ...
