Located at the high-demand at the Kilokari substation, the project is expected to improve power quality and enable 24/7, reliable ...

Entrepreneurs interested in the solar energy sector will receive essential resources and facilities to foster a continuous and ...

Solar + Storage: New Delhi's Energy Swiss Army Knife When we installed Delhi's first grid-scale battery at Nehru Place metro station, skeptics called it a "glorified power bank." Three months ...

Key Findings Delhi must use the Rs33.48 billion (US\$407 million) allotted to the energy sector in its budget for 2023-24 to ...

Utility Energy Storage Facility: A delegation of over 60 international representatives from 40 countries visits Delhi's new 20 MW battery energy storage system, showcasing India's ...

AmpereHour Energy, in partnership with Indigrid and BRPL, delivers a pioneering 20 MW / 40 MWh BESS in South Delhi, enhancing grid reliability, cutting emissions, and ...

Located at the high-demand at the Kilokari substation, the project is expected to improve power quality and enable 24/7, reliable power in the area for over 12,000 low-income ...

Explore cutting-edge energy storage solutions in grid-connected systems. Learn how advanced battery technologies and energy management systems are transforming renewable energy ...

With the new installation at Khyber Pass depot, the total on-site rooftop solar capacity of Delhi Metro now

stands at 51 MW, spread across 93 stations and 15 metro depots.

The 20-MW energy storage system, collaboration between BSES Rajdhani Power Limited and IndiGrid, is located at the 33/11 kv ...

The paper spelt out that concentrated solar power (CSP) plant can deliver power on demand, making it an attractive renewable energy storage technology, and concluded that various ...

Developed with support from IndiGrid, GEAPP, and TERI, the system is described as South Asia's largest standalone battery-inverter power setup. The government intends to ...

New Delhi, Dec 30 (UNI) Bihar""s renewable energy ambitions received a major shot in the arm with the successful energisation of a crucial 132 kV transmission line linked to the ...

These three new energy storage power stations on the side of the power grid can increase the short-term emergency peak capacity by 200,000 kilowatts for the Nanjing power grid, meeting ...

IndiGrid, a power sector Infrastructure Investment Trust (InvIT) in India, has announced the commissioning of India's first regulated utility ...

IndiGrid, a power sector Infrastructure Investment Trust (InvIT) in India, has announced the commissioning of India's first regulated utility-scale standalone battery energy ...

In April 2025, the Delhi assembly introduced a plan to install a 500 kV rooftop solar system within 100 days. Currently, the assembly has ...

In April 2025, the Delhi assembly introduced a plan to install a 500 kV rooftop solar system within 100 days. Currently, the assembly has two 100 kW solar plants. The proposed ...
