A battery that thrives at 300°C (572°F) and uses molten metals. Sounds like sci-fi? Meet sodium-sulfur (NAS) batteries - the high-temperature superheroes of grid-scale energy storage.

Commercial deployment of sodium-sulfur batteries for EVs, grid-scale storage, and green hydrogen projects. A domestic manufacturing base capable of meeting India's storage ...

Japan's NGK Insulators has discontinued its sodium-sulfur (NAS) battery product line, after the exit of its partner, BASF.

The Sodium-Sulfur Battery For Energy Storage market is set to expand steadily over the 2026-2033 timeframe, supported by rising demand across industrial, commercial, ...

The new sodium-sulfur batteries are also environmentally friendly, driving the clean energy mission forward at a low cost.

The India sodium sulfur batteries market is experiencing growth due to the rising demand for reliable energy storage solutions in sectors such as renewable energy integration, grid ...

India Energy Storage Week 2025 to showcase 300+ innovations, key MoUs & giga announcements driving India's ...

As the technology progresses and production volumes increase, the cost of Na - S battery energy storage is expected to decline, making it a more competitive option in the energy storage market.

Government officials and industry representatives from over 20 countries are expected to participate in the

11th edition of India Energy ...

IndiGrid has introduced India's first regulated utility-scale battery energy storage system in Delhi. The 20 MW/40 MWh project, commissioned on schedule, is designed to ...

The sodium sulfur battery is a megawatt-level energy storage system with high energy density, large capacity, and long service life. Learn more.

An international team of scientists eyeing next-generation energy storage solutions have demonstrated an eco-friendly and low-cost battery with some exciting potential. The ...

Under the project, out of 12 liquid cooled batteries, nine have been installed and the rest will be installed shortly. It is likely to go live from end of March or early next month, it ...

IndiGrid was awarded the project in October 2023 by BSES Rajdhani Power Ltd (BRPL). It commissioned the project in record time with the support of BRPL, Global Energy ...

New Delhi: Researchers at the Indian Institutes of Technology (IIT) Delhi on Friday released a new study about sodium-sulphur (RT-Na/S) batteries that will pave the way for ...

IndiGrid was awarded the project in October 2023 by BSES Rajdhani Power Ltd (BRPL). It commissioned the project in record time ...

NEW DELHI | 8 May, 2025 -- The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone ...

In its endeavour to support India's Net Zero Goal and push country's growing global influence on Energy Storage, EV, Clean Tech ...
