Does 9bot need BMS?

NO,except for 16" ninebot one,all ninebot products need to be connect to BMS with FW specific for 9Bot. In case of a generic or a lack of BMS,the mother board will not recognize the battery and will not work normally (low speed limit or impossible to use) that's the way for 9bot to be sure to sold only branded (and expensive) battery...

Is happy BMS compatible with Ninebot Max G30 e-scooters?

Happy BMS is hardware and software compatiblewith Ninebot Max G30 e-scooters,so you can make a custom extended battery,which is recognized by the scooter as original,keeping all the functionality.

Should I get rid of the Ninebot BMS?

Whilst it is good to get rid of the Ninebot BMS. the ninebot BMS built in obsolescence is bad. It draws to much power and if you don't charge your unicycle for a few months it may never charge again... I think the BMS should be replaced with a generic 15S BMS to blaance charge maybe use one even one of those with bluetooth.

What is a happy BMS battery?

A battery equipped with Happy BMS is recognized by Xiaomi and Ninebot electric scooters as original,keeping all the functionality of the scooter. The main Happy BMS feature is up to 15s battery support,which means you can equip your scooter with a 15s battery instead of the original 10s,reaching +50% to the top speed.
