-----

North Macedonia has made important commitments in its green transition, including the complete phase-out of coal-fired power generation and the deployment of 1.7 gigawatts of renewable ...

How to get the permits for energy projects? What is the strategy on storage? What is the plan for green transition? Deputy Minister for Energy Labudovikj presented the new draft ...

With EUR25M in EU grants allocated through 2026 [5], North Macedonia's storage revolution is charging faster than a Tesla at a supercharger. The real question isn't "if" but ...

Sep 16, 2025 &#183; Zen Energy Group kicked off the construction of a landmark solar plus storage project in North Macedonia, Yossi Edelstein, Chief Executive Officer of Zen ...

North Macedonia is set to significantly boost its renewable energy capacity by 2025, with the upcoming construction of a floating ...

To further enhance grid stability, the country is also exploring large-scale energy storage solutions. The ambitious North Macedonia ...

But most are in the early stages of development, advancing only slowly toward the construction phase. Like elsewhere, poor grid ...

Additionally, according to the Energy Law, power plants that use variable renewable energy sources are required to install an electricity storage facility within the power ...

The Government of North Macedonia has adopted the Annual Plan for the Construction of Energy Facilities

for Electrical and Heat Energy Production and Electrical ...

The 2022 energy crisis exposed and intensified the vulnerabilities in the energy sector of North Macedonia, revealing the risks of an insufficiently diversified power generation mix and weak ...

In 2022, North Macedonia adopted amendments to the Energy Law, partially transposing the TEN-E Regulation (EU) 347/2013. There is currently no electricity PEI project in North ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid ...

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to ...

In a recent interview, North Macedonia's Minister of Energy, Mining and Minerals Sanja Bozinovska said projects are under development for battery energy storage systems ...

Without parallel investments in storage and grid upgrades, future PV expansion may slow. What are the main PV deployment ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind ...

North Macedonia is rapidly advancing in the renewable energy sector, with a staggering 4.2 GW of battery storage projects proposed in recent energy auctions.

That's exactly what North Macedonia is aiming for with the Skopje Energy Storage Power Station, a grid-scale battery project that's turning heads across the Balkans. But here's ...
