Who is Emirates national Batteries factory?

Emirates National Batteries Factory's commitment to excellence extends beyond its status as the first lead-acid battery manufacturer in the Emirates. The foundation of its success lies in the high-skilled factory management,boasting extensive experience in the field of battery manufacturing.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

Where can I find the instruction manual for the batteries?

Inside the door there is a document pocketcontaining the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required,the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

What are the safety requirements for a lead accumulator?

ENERPOWER has developed a project that adapts to the safety criteria referred to by the current legislation CEI 21-6 / December 1990 for the installation of lead accumulators. Adequate natural ventilation (in the charging conditions indicated by ENERPOWER).
