What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

How much does a large telecommunication cabinet cost?

Large indoor cabinets are designed for extensive telecommunication systems in controlled environments like data centers. These telecom racks provide ample space for organizing equipment and often include advanced cable management and cooling systems. Prices for large indoor cabinets range from \$2,000 to \$10,000 or more.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.

How much does a telecom rack cost?

These telecom racks provide ample space for organizing equipment and often include advanced cable management and cooling systems. Prices for large indoor cabinets range from \$2,000 to \$10,000 or more. The cost depends on factors like size, material quality, and additional features.
