By Charumini de Silva International Solar Alliance (ISA) Director General Ashish Khanna yesterday unveiled a comprehensive plan to accelerate solar energy deployment ...

By Charumini de Silva International Solar Alliance (ISA) Director General Ashish Khanna yesterday unveiled a comprehensive ...

Regarding solar power potential, solar insolation received by Bhutan and Nepal is relatively lower compared to other South Asian countries, as these two countries lie in the ...

This effort leveraged existing wind and solar data sets for South Asia (including India, Nepal, Bhutan, Bangladesh, and Sri Lanka) to examine how the cost of wind and PV generation vary ...

The prospect of South Asian regional solar connectivity aligns with the ISA's vision of "One World, One Sun, One Grid", which promotes transnational solar energy integration.

Vast arrays of solar panels floating on calm seas near the Equator could provide effectively unlimited solar energy to densely populated countries in Southeast Asia and West ...

This study suggests that the monsoon system is able to positively respond to solar activity, even as little as 1-2 Wm<sup>-2</sup>, regardless of background climate states.

This report was prepared by the Working Group for Distributed Energy System (DES) in ASEAN under the Energy Project of the Economic Research Institute for ASEAN and East Asia ...

The Ninh Thuan Solar Farm was developed by a partnership between Sunseap (now part of EDPR) and InfraCo Asia as part of a 20 ...

This study suggests that the monsoon system is able to positively respond to solar activity, even as little as 1-2 Wm<sup>-2</sup>, regardless ...
