Will a 5G hybrid network be available in Italy?

(PRESS RELEASE) MILAN,18-Oct-2023 -- /EuropaWire /-- Vodafone Business and Snam have signed an agreement for a private 5G hybrid network infrastructure which will be integrated into the Vodafone network and thus available throughout Italy. It is the first hybrid 5G mobile private network in the domestic energy sector.

Does Snam have a 5G network in Italy?

(IN BRIEF) Vodafone Business and Snam, a leading natural gas infrastructure company in Europe, have entered into an agreement to establish a private 5G hybrid network infrastructure integrated into the Vodafone network, covering Snam's 23 plants across Italy. This marks Italy's first hybrid 5G mobile private network in the energy sector.

What are hybrid energy solutions for telecom?

Hybrid energy solutions for telecom integrate multiple energy sources--such as solar-powered telecom tower systems,batteries,and backup generators - to create a sustainable,cost-efficient solution. While hybrid energy solutions have improved telecom power reliability,traditional chemical-based batteries pose major challenges.

Do hybrid energy solutions improve telecom power reliability?

While hybrid energy solutions have improved telecom power reliability,traditional chemical-based batteries pose major challenges. Limited lifespan: Conventional batteries like lithium-ion or lead acid batteries degrade over time,requiring frequent replacement.

This marks Italy's first hybrid 5G mobile private network in the energy sector. The network will enable simultaneous connections of ...
