How big is the global substation industry?

The global substation industry is set to cross USD 164 billion by 2032. The rapid development in the volume of structured and unstructured data, collected with the increasing need for cloud computing, is likely to encourage U.S. substation market growth, pushing the demand for effective data management systems.

How big is the Digital Substation market?

The global digital substation segment is estimated to surpass USD 10.5 billion by 2028. The substation market has been heavily influenced by a variety of regulatory mandates and guidelines that have established global standards for the product's deployment and production.

What is the projected growth rate of substation market in 2032?

The conventional substation segment of U.S. substation market is projected to witness 4% CAGR through 2032. Conventional model of the single direction of electricity flow is shifting towards multidirectional flows which requires significant change in the transmission infrastructure of mode of operation and the electrical system.

What is BSLBATT 200kWh Battery Cabinet?

BSLBATT 200kWh Battery Cabinet separates the battery pack from the electrical unit for enhanced safety. Integrates active and passive fire protection with PACK-level, group-level, and dual-compartment safeguards. Large capacity, patented LFP module with CCS integration, 16kWh per PACK, and >95% efficiency per cycle.
