Why should you choose an outdoor electrical enclosure with an IP55 rating?

When you choose an outdoor electrical enclosure with an ip55 rating,you get a solid balance between protection against dust and water. The ip55 rating means your equipment receives almost complete protection from dirt,dust,oil,and other non-corrosive materials. You also gain complete protection from contact with the enclosed equipment.

Where can I find IP55 enclosures?

Find IP55 enclosures at Bison Profab,offering reliable protection against dust and low-pressure water jets. Learn about IP55 specifications and ideal uses.

Why are IP55 enclosures more expensive than IP65 enclosures?

Higher protection levels often mean higher prices. IP55 enclosures cost less because they offer basic protection. IP65 enclosures cost more due to better dust and water resistance. IP66 enclosures have the highest price because they provide the strongest protection. IP55: Budget-friendly for simple outdoor setups.

Are IP55 enclosures suitable for street use?

Yes,IP55 enclosures are appropriate for street use. They are designed to handle rain,splashes,wind-driven moisture,and general outdoor exposure within their declared operating limits.
